

Serviced Office Space UK

Stirling FK8 3AQ

This centre is set within a mature parkland landscape, yet is only 10 minutes from Stirling's commercial district, motorway and mainline railway station. It is located 32 miles from Edinburgh.

These stables have been recently converted into modern office space. The conversion, supported by Historic Scotland, has retained the feel and features of these historic buildings. Despite its historic context the scheme is fully equipped for modern business. Contrasting the high ceilings, integral beams and stonework, are 360° skirting trunking, highly flexible floor plans and a variety of IT solutions available on-site. The offices range in size from 500 to 8000 sq ft. The subjects are available for lease with flexible terms available.
