

Serviced Office Space UK

1-3 Kings Meadow

Oxford OX2 0DP

This property is located within a mile of Oxford's primary business and retail city centre and its many colleges and institutes, and in particular the Said Business School. The space is approximately 0.75 miles from Oxford railway station, a similar distance from Seacourt park and ride, and is even closer to the main bus routes serving the west of Oxford. The Gloucester Green intercity bus depot with its regular 24-7 services to London and its key airports is about a mile away. There is inclusive on-site parking available on a first-come basis, as well as available adjacent off-site parking. The A34 and A420 junction is also about a mile away which in turn gives access to the M40 10 miles north and the M4 25 miles south.

This centre provides high-quality serviced office working space for a diversity of new and established small businesses and organisations. Premises costs can be a challenge to new and small businesses and are often difficult to quantify and manage, so this space's terms are straightforward, predictable, and all-inclusive flat rates. No deposit required- only ask for a month-by-month commitment. The workstations are much bigger than clients expect and have been arranged to support flexibility and encourage a sense of community while being generous with space. They are available as hot desks and dedicated workstations that can be scaled and grouped to suit clients changing needs, as well as a range of private suites, all of which are available on simple and flexible terms. This centre's central location, the beautiful workspaces and meeting rooms, plus other facilities make coming to the office something to look forward to.
